DETAILED ACTION

1. Claims 1 to 30 are presented for examination.

Priority

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119, which papers have been placed of record in the file.

Information Disclosure Statement

3. The references listed in the information disclosure statement submitted on 7-26-2005 and 10-4-2006 have been considered by the examiner (see attached PTO-1449).

Allowable Subject Matter

4. Claims 1 to 30 are allowed.
5. The following is an examiner's statement of reasons for allowance: The prior art made of record teaches radio link protocol (RLP) for data transmission over global system for mobile communication (GSM) wherein RLP frames provides the data link service and the exchange identification (XID) frame is used to negotiate and renegotiate parameters of the RLP frames. The prior art made of record also teaches error recovery for RLP frames; Rasanen (USP 6898181 B1) is one example of such prior art.

The prior art made of record, however, fails to teach singly or in combination the novel element of "varying XID parameters set at an initial stage of reception on

the basis of a comparison result; and requesting retransmission of an RLP frame corresponding to the error frame on the basis of the varied XID parameter.”

Therefore the primary reason for allowance of the claims is the inclusion of the novel feature as stated above that is not taught in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Bergenwall et al. (USP 6996079 B1)

Galyas et al. (USP 6826168 B2).
